PROJECTS

{ Paradiddle }

[Github](#)/[Site](#)

Paradiddle is an app for drummers to fine tune their concept of time. The app establishes a set tempo to compare the user's strokes with perfect time. A real time graph gives a visual representation of how able the user is at keeping time.

Tech: Web Audio API, ChartJS, AngularJS, HTML5 Canvas

{ Grasp }

[Github](#)/[Site](#)

Grasp was designed to fill a need for professors who are teaching complex topics. The app uses a graph that updates in real time to measure the audience's overall understanding. There is a companion app the allows students to alert the lecturer when they get lost.

Tech: Ionic, Sockets, AngularJS, Node, Express, Knex, PostgreSQL

{ Set }

[Github](#)/[Site](#)

Set is one of my favorite card games. I was disappointed to find that there is no way to play online. I decided to create my own fully functioning web app to .
